Experience

Python Internship (2025)

- In 2025 i gain a experience from Digitech internship program
- In this internship i make a little projects.
- I work and make game like puzzle memory game and hungman games.

Django development

Django internship(2026)

- In the end of 2025 i apply for a Django internship.
- I work on real world projects and have great communication.
- I work with a group of people and share thoughts and gain experience from our seniors.

Self Work

- Before internship i work on real world projects.
- I create a LMS website for school and also proper deploy the website for demo.
- Also i create a real world chatt-app in which user register and login and start chat with him /her friend not just chat but also call and voice.
